

Nexamp, Inc. Electrician

Position Summary

Nexamp is seeking experienced, licensed Electricians to work on solar plants and other renewable energy systems. Nexamp develops, builds, owns, and operates utility scale solar plants. We are seeking bright and enthusiastic professionals to join our highly motivated and effective team. For more detailed information visit: www.nexamp.com. This job posting is not intended for licensed electricians wishing to work as a subcontractor to Nexamp, but rather seeks to fill full-time, salaried positions.

Duties and Responsibilities

- Maintain license in good standing
- Manage other electricians and subcontractors
- Perform all aspects of installation and service of solar systems. Perform routine and emergency equipment troubleshooting and maintenance work as required.
- Estimate performance of renewable energy electrical systems.
- Estimate and maintain project budgets and schedules.
- Develop and manage relationships with network of subcontractors and manufacturers necessary to design, install and service systems on a national scale.
- Maintain Nexamp vehicles, tools and equipment in a responsible and dedicated manner.
- Maintain and enforce rigorous safe work practices to ensure safety of our employees, subcontractors, our customers and their property.
- Travel regionally and nationally for extended periods of time to supervise a variety of projects. Applicants can expect 50% of their time to be spent traveling.

Qualifications

Ideal candidate must be bright, enthusiastic, self-motivated, customer and results-oriented, and a team player. Desired qualifications:

- NABCEP Certified PV Installer
- Massachusetts Journeyman Electrician License (additional states preferable).
- OSHA 30 qualified
- Strong skill base in Industrial, Commercial and Residential electrical work to include low and medium voltage systems.
- Displayed management and leadership experience.
- Displayed positive jobsite safety history.
- Must be proficient in Microsoft Word and Excel.
- Excellent written and verbal communication skills.
- Driver's License and reliable transportation.
